

eBooks & Audiobooks on EBSCOhost®

An Essential Part of a **Quality Collection** for *Academic Libraries*

Access Scholarly Titles from Leading Publishers

With eBooks on EBSCOhost®, academic libraries can build a high-quality collection from a growing selection of scholarly, frontlist and award-winning eBook and audiobook titles from leading publishers. These titles cover a broad range of academic subject matter and topics to help students, faculty and staff with any research need. And with **no fees and no markups** on any title, eBooks on EBSCOhost is always a cost-effective option for any library.

A Powerful, Familiar Search Experience

eBooks on EBSCOhost provides a comprehensive and powerful search experience for researchers—users can discover relevant eBook and audiobook titles alongside other EBSCO databases, find the same intuitive search features and tools as EBSCOhost, search the full text of eBook titles, enjoy a simple download process and much more.

Find the Perfect Collection of Subject-Specific Titles for Your Library

In addition to individual titles, EBSCO offers several pre-packaged collection options that are hand-selected by a team of Collection Development experts to meet the diverse needs of academic researchers. (*See the reverse side for sample academic collections.*)

Acquiring eBooks Has Never Been Easier

Find the **Perfect Collection** for Your *Academic Library*

EBSCO makes it easy for academic libraries to discover titles that meet user needs by organizing eBooks into pre-packaged collections, including Subject Sets, eBook Subscription and Audiobook Subscription collections, and Featured Collections.

(Titles within collections can also be purchased on an individual basis via EBSCOhost® *Collection Manager* or GOBI³.)

Subject Sets

These collections focus on a single topic of high interest from within a broader subject, and contain frontlist titles. There is no title overlap across Sets, and no title overlap from year to year, so libraries never need to worry about duplication.

Subject Set topics include:

- Accounting
- Biology & Life Science
- Business
- Communication and Mass Media
- Community College Companion Collection
- Criminal Justice
- Economics
- Education
- Electrical & Electronic Engineering
- Finance
- Humanities
- Nursing
- Philosophy
- Psychology
- Sociology
- Women's Studies
- And many others...

Subscription Collections

These eBook packages include a large number of titles across a broad range of subject areas, with new titles added on a monthly basis (at no additional cost).

eBook Academic Subscription Collection

This growing package contains a large selection of multidisciplinary eBook titles that represent a broad range of academic subject matter, including art, business, education, literary criticism, philosophy, political science, religion, technology & engineering, and much more.

Community College eBook Collection

Focused on the academic and trade information needs of community colleges, this multidisciplinary collection contains titles covering topics across programs and fields of study in key subject areas. The complexity of the information available in this collection varies from introductory/basic content to higher-level content.

Featured Collections

Featured Collections offer titles that cover a range of different topic areas from within a particular subject, and include frontlist titles whenever possible. Titles are owned in perpetuity.

Community College Collection: Nursing and Allied Health

This collection of frontlist titles contains a wide variety of content curated for community college students as they pursue careers in nursing, radiology, dental hygiene, veterinary technology, computer software and other areas related to the nursing and allied health field.
